Georgia Rural Development Employee Spotlight!

Erica Walker, Area Technician

Tifton, Ga Area Office

Growing up & currently living in Ashburn, GA, I am the middle child to 2 sisters & 2 brothers. My mom raised us singlehandedly because my father died when I was 5 years old... In my eyes, my mom is Super-Woman. I am an Honor Graduate of the class of 1998. Spending 5 years living and working in Jacksonville, FL. is where I was introduced to the housing industry. I started my career with USDA in October of 2011. Coming from a mortgage & banking background, I picked up learning RD SFH rather quickly. This entire experience has been very rewarding, knowledgeable, worthwhile & most importantly satisfying. I especially like to see the faces & hear the happy voices of the people we serve, it's very fulfilling. To be in a position to bring such a positive impact to our customers is one attribute that's pleasing to my heart. Although my time here has not been long, I plan to do a lot more before reaching retirement. "Thanks For Spotlighting My Life."

USDA is an equal opportunity provider and employer.
